## Profile

---

AI-focused Software Engineering student at Addis Ababa University (AI Stream) with a strong background in **Data Science** and building **full-stack applications**. Experienced in translating real-world problems into products, including Wild Oasis, CivicFix, and FarmerHub. Known for a 3.62 GPA, solid **problem-solving**, and a hands-on approach to modern development workflows (version control, cloud, APIs). Now focused on combining **Machine Learning**, **data-driven insights**, and scalable **software architecture** to create practical, high-impact solutions

## Education

---

**Bachelor of Science in Software Engineering (AI Stream)**, Addis Ababa University 02/2023 – 02/2027  
Addis Ababa, Ethiopia

- GPA: 3.62/4.0
- Relevant Coursework: Data Structures & Algorithms, Mathematics for AI, Object-Oriented Programming, Databases, Machine Learning, Web & Mobile App Development, Social Network Analysis, COMPARC

## Skills

---

### Technical Skills

Languages: JavaScript | Frontend: React, Next.js |  
Backend: Node.js, Express | Mobile: Flutter |  
Databases: MongoDB, PostgreSQL | Authentication  
& Cloud: Firebase, Supabase, JWT | Tools: Git,  
GitHub, Figma

### Professional Skills

Team Collaboration, Communication, Problem  
Solving, Adaptability, Critical Thinking, Time  
Management | Proficient in these languages  
English (Fluent) Arabic (Fluent) Amharic (Native)

## Projects

---

**Wild Oasis – Booking Web App**, Next.js, Javascript, Tailwind CSS Supabase FastAPI 📄

- Built a full-stack booking platform where guests can explore stays, view details, and make reservations.
- Added in-app guidance, weather info, and a simple reviews section Integrated Chapa payments

**CivicFix(In-Progress)**, NextJS, PostgreSQL, Supabase Auth, Chart.js 📄

- Building a web app where citizens can report local issues with location & an interactive map.
- Using charts to show trends, with plans to add AI helpers for clearer reports and smarter grouping.

**Farmer HUB**, Node MongoDB React CRUD 📄

- Built a web platform that connects farmers with buyers so they can list produce, browse offers, and arrange deals in one place.

## Certificates

---

- Certified Data Annotator By AnnotatePlus 📄
- HerCommerce Hackaton Certification 📄
